The Accreditation Task Force concluded its work for the 2014-2015 Academic Year with its final meeting on April 17, 2015.

Fall 2014 activities included:
- Orientation for Task Force members (members were asked to review the CCIE and Task Forces Charters and the Comprehensive Assessment Planning Calendar, posted on the intranet.)
- Review of the Follow-Up Report due to ACCJC in mid October (members were provided with a near-final draft of that report.)
- Review of the Actionable Improvement Plan (AIP) updated in September 2014 (this will be the focus of the November meeting.)
- Planning for the research and writing of the Midterm Report (due in October 2015, but evidence-gathering must be done in Spring 2015, and writing in Spring 2015 should result in a draft that can be shared with the campus for review.)

Spring 2015 activities included:
- Update the Actionable Improvement Plan (AIP); to be finalized during Summer and early Fall 2015.
- Follow-Up Reports from Fall 2013 and Fall 2014 have been consolidated by the Accreditation Liaison Officer (ALO) into an early draft of the Midterm Report, which must address all the original recommendations as well as the AIP. This will be shared with the Chancellor’s team to get initial feedback on updates, with a draft made available to the campus for final review in late summer/early fall 2015.
- Complete the committee self-assessment, as requested by FSEC.
- Prepare and distribute to the campus a comprehensive survey focused on major recommendations from our 2012 report as well as recent campus reorganization. Result of this survey will be shared with the campus in the fall, and will inform the final draft of our Midterm Report.

Several current members of the Accreditation Task Force have agreed to remain for the coming academic year to provide some valuable continuity. The Accreditation Task Force decided to include representation from IT on a consulting basis, rather than as a regular member of the committee.
