Proposal to the FSEC regarding the Recruiting and Retention Committee

Over the years, a marketing position, an outreach position, and the beautification committee have all been created as a result of the efforts of the Recruiting and Retention (R&R) committee just to name a few. Therefore much of the responsibility of the R&R committee has been shifted to other areas. So the recommendation of the 2011-2012 R&R committee was to either:

1. Dissolve the R&R committee and channel their manpower and their efforts into a new committee.

2. Or to simply change the emphasis of the R&R committee.

The new committee, which we would like to call the Student Success Committee, is based on a suggestion from our Chancellor. This committee would include two sub-committees:

1. A sub-committee that would examine the types of services new incoming students need.

2. A sub-committee that would examine the types of services current students need.
