Health Services

Mission
The mission of the Health Office is to promote a healthy, safe, and accessible campus community.

Goal: To integrate individual health, education for health, prevention of disease, and public health responsibilities.

Objectives: The Health Office will:

1. Produce user-friendly information for students.
2. Provide relevant workshop and training opportunities for campus faculty, staff, and students.
3. Implement reasonable options that improve accessibility on campus.
4. Make program improvements based on ongoing assessment and evaluation.

Student Learning Outcomes: Students who receive services through the Health Office will be able to:

1. Learn about where they can go to get health care services.
2. Learn how to go about finding information on health and safety topics.
3. Learn and demonstrate academic responsibility by communicating with faculty, as appropriate.
