Articulation and General Education Board Notes

Spring 2010

The Board met in April. All sub-board chairs were in attendance: Chris Ann Moore, chair (E-Focus chair), Jennifer Higa-King (Diversifications chair), Jerry Saviano (Foundations chair), Marcia Roberts-Deutsch (WI chair), Kara Karadeem (Speech chair) Jan Peterson (HAP chair) and Keala Chock (incoming HAP chair). VCAA Erika Larco was a guest.

Chris Ann Moore stepped down after servings as General Education Board chair for the past 6 years. She nominated Jennifer Higa-King to replace her. Jennifer was unanimously elected.

Each sub-Board chair gave an update on the accomplishments and plans of, and obstacles faced by, his or her sub-board. Each sub-board chair will provide a summary of that report on the intranet under that particular boards subsection of the Articulation and General Education Board site.

Overall, all boards are functioning more effectively than ever. The change in the CPC charter to include the General Education Board chair or designee as a voting member of the committee has greatly facilitated communication about the various boards’ roles as well as the successes achieved and obstacles faced in the articulation process. It has also increased campus understanding of the processes involved and aided the implementation of those processes.

The various charters for each board and the structure for all boards, reviewed and revised last semester, have proven to accurately reflect and guide the work of the various sub-boards and of this body. There is no need for further revision at this time.
